## 2016

# Fairhaven High School

# Introduction

At the time it was built, Fairhaven High School was one of the most remarkable in the world. From the first day of school on September 10th, 1906 to now, this school stands out with its beautiful exterior and interior design and the students that walk the hall.

Henry Huttleston Rogers gave Fairhaven many buildings including the Millicent Library, Town Hall, and Fairhaven High School. These buildings are the highlights of our town, being the first sight people see as they enter from New Bedford. These historic landmarks symbolize our town and all its history.

Each day, students are encouraged to “seize the day” and work “to the stars” as the Latin inscriptions of “Carpe Diem” and “Ad Astra” are carved into the front entrances of the original building. They have become the school's mottos to express the high hopes and dreams of the students and staff here. Each day the students, teachers and staff work together and strive to achieve what they can in their time here.

FHS offers so much for its students including academics, sports, clubs, and a place for students to come and learn every day. Each year the school grows in both its classes, activities, and students. It's amazing to think about what the future holds for FHS and the students passing through.

## A Message From Your Yearbook Editors:

For us Yearbook Editors this book is more than pictures and quotes. It holds priceless memories and heart filled dreams. Four years ago we entered the doors of Fairhaven High not realizing the memories and friends we would cherish forever.

Wherever our big dreams may take us, and however far we may travel, our goal was to create a yearbook that everyone could look back on and remember where we all came from. We are more than just students in a small school from a small town. What were once friends and classmates are now a big family we will keep for a lifetime. May we all reflect on these years and realize that the little things in life were actually big things.

Good luck to the class of 2016. May all our wishes and big dreams come true.

# Class of 2016 Officers and Advisors

## Class Officers

President: Alec Plante  
Vice President: Corey Bergeron  
Secretary: Alexandra Lima  
Treasurer: Heather Welty  
Public Relations: Tyler Rego  
Historian: Abigail Pires

## A Message From Your Class President:

First of all, and most importantly, I would like to thank the entire Fairhaven school system for making these past four years so remarkable. I speak on behalf of my class when I say the hard work put in at each level of faculty in this school is amazing and certainly does not go unappreciated. I hope that the classes that follow the class of 2016 will recognize the unparalleled dedication the Fairhaven High School staff has to giving their students all means necessary to pursue a promising future. However, I would also like to take this time to express my deep and heartfelt condolences to the teachers, administration, and other assorted faculty of Fairhaven High School. Because on June 5, the best class to ever walk the Halls of Ivy will be donning their caps and gowns and saying their goodbyes.

It has been my sincere pleasure watching the class of 2016 build its legacy; for some of you, I have been able to watch it since kindergarten. Whether it be in sports, academic, or school spirit, the class of 2016 to this day stands as the pinnacle of success, and will hold that title for generations to come. We truly are a class of big dreams, and there is no doubt in my mind those dreams are only a handful of years away from becoming realities.

I take immense pride in having been able to not only study, work, and play alongside my fellow members of the class of 2016 these past four years, but also for being able to service you as your class president. For that, I thank you.

Christine  
Neville

## Class Advisors

# Exchange Students

Name: Aoi Saito Home Country: Japan

Why did you choose to come to America? Because I like English and American culture

What is your favorite thing about the U.S.? We have more choices than Japan (much more free)

What is your least favorite thing about the U.S.? We can't go anywhere without driving

What is your favorite American food? Frozen yogurt

What has been the hardest thing about living in America? Avoid gaining weight

Is there anything that surprised you about living/ going to school here? Starts early and ends so early

What activities do you participate in inside/ outside of school? Field hockey, jazz band, band, orchestra, tennis

What is your favorite class here? Why? Orchestra because music has no borders

What do you miss most about home? Real Japanese food

Name: Amy Home Country: South Korea/ Philippines

Why did you choose to come to America? I've always wanted to come here and experience living here to encounter all the things I've always wanted to do

What is your favorite thing about the U.S.? The nature and environment I see here which I cannot really see back home unless I go to the mountains or certain places

What is your least favorite thing about the U.S.? Trump on TV telling America how great he is and how he's a winner to the people and saying he wants to kick out all of the immigrants and Muslims in the U.S. I really dislike him. He should never become the next president!

What is your favorite American food? Mashed potatoes and pizza!

What has been the hardest thing about living in America? Not being able to transport to different places unless I have someone with me who can drive and who has a car. Also because I don't and can't have a permit or drive any vehicle as being part of this exchange program.

Is there anything that surprised you about living/ going to school here? How different it was compared to what we see in American movies such as High School Musical and Mean Girls, etc.

If you could take one thing back home, what would it be? The cold weather, because the country where I live (Philippines) is a tropical country where we only have two seasons, sun or rain, and where our average temperature is 90-100o. The whole year except during December-February because of the winter season around the world.

What activities do you participate in inside/ outside of school? I was in field hockey during the fall season, and am currently in Jazz Band, Drama Club, Art Club, and will be joining Tennis in the Spring.

What is your favorite class here? Why? The extracurricular classes such as art, ceramics, etc. because we don't have them back home and I really enjoy them since I've never experienced them as a regular class. I'm really gonna miss these classes because these classes are places i can release my stress and always enjoy.

What do you miss most about home? I really miss my dog, family, and food. I can't separate those three because I really miss my dog every time I see our dog here, I also miss my family and friends since I have not seen them ever since I came to the U.S., and I really miss our food, Korean food because it's not very popular worldwide. It's not really easy to make and find good Korean restaurants around New England.

# 2015 After Prom

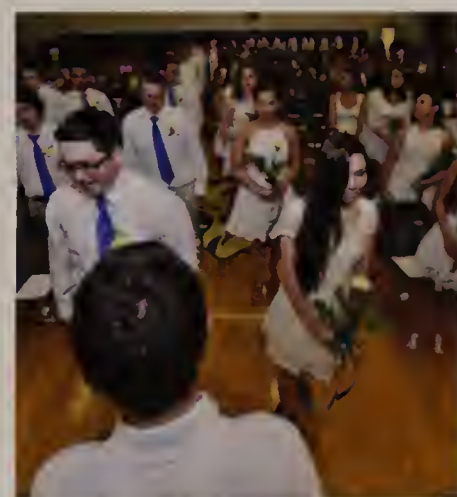

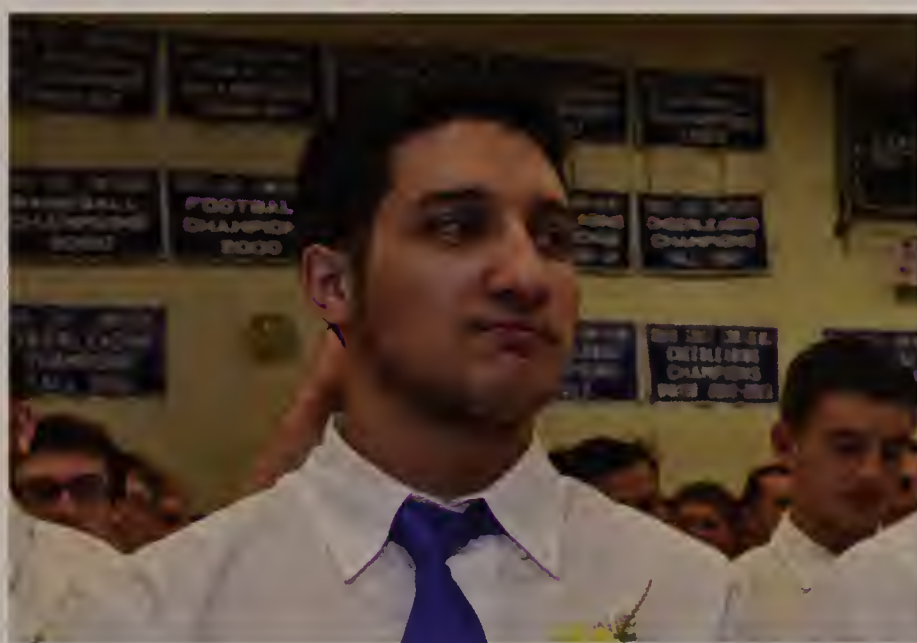

# Junior Day

Junior Day is a valued tradition. It is the last official day of school for seniors prior to their graduation, and is a rite of passage for juniors who will be symbolically taking on the roles of leadership once held by seniors. The passing on of the responsibilities of being a "senior" is symbolized in a ceremony wherein the senior class president takes off the mantle of leadership and passes it on to the junior class president.

# A Closer Look at Junior Day
